

Remembering Dr. K. V. Raghavan...

Dr. K. V. Raghavan, AERB Board Member (October 2001 to October 2017)

AERB mourns the untimely demise of Dr. K. V. Raghavan on October 12, 2017. He was the longest serving Board member of AERB.

Dr. Raghavan will always be fondly remembered by us in the Atomic Energy Regulatory Board for his invaluable wisdom and insights in the deliberations of the Board. It has helped in growth of AERB as an institution of repute. He was a technical man to the core and had balanced beautifully the regulatory views with strong technical reasoning, while providing outsider's perspective on regulatory issues.

He was an internationally renowned Chemical Engineer, a Fellow of the Indian National Academy of Engineers (INAE) and its Vice President.

Apart from being a member of AERB, he had also been associated with many other reputed institutions; Indian Institute of Chemical Technology (IICT), Defence Research & Development Organization (DRDO), Heavy Water Board, among others. His vast experience has benefitted AERB immensely.

His demise would leave a void which would be difficult to fill for a long time to come. AERB stands with the near and dear of Dr. Raghavan and pray to give them the strength to endure this great loss.
