

Radiation Safety Certification for Regularization of Radiation Therapy Technologists 2015 (RS-RTT-2015)

This has reference to application received till **March, 20 2015** by AERB against the circular (AERB/RSD/RT/RT-Tech-Qualification/2012/500 dated 11 January, 2012) and directive issued by Head, RSD, AERB on 17 July 2012 to attend the Safety Certification Program for regularization of radiotherapy technologist, whose qualification is not in line with AERB requirements (appended below). Based on the details provided by the candidates in the application form, they have been allocated training centers for undergoing the RS-RTT course 2015 which is being organized by RP&AD, BARC in collaboration with the centre concerned.

Details of training centre, duration, and centre coordinator along with the list of the candidates are mentioned below. **Candidates are requested to contact the respective course coordinator for further information.**

General Information:

1. Candidates are requested to confirm their participation to the concerned centre coordinator at the earliest possible but not later than **April 15, 2015**.
2. A candidate has to bring the requisite original certificates (**10+2 in science, professional qualification certificate and experience certificates**) for verification prior to joining the training program.
3. Each candidate has to fill up a declaration cum verification form (Annexure-1) prior to joining the regularisation programme. The course coordinator of the centre concerned will verify and authenticate the original certificates (10+2 in science, professional qualification certificate and experience certificates issued by the institutions) of the participants prior to inducting them for above said program. **One set of duly attested copies of the above mentioned certificates has to be submitted along with the declaration cum verification form.**
4. **In case a candidate is unable to show the above mentioned original certificates, he /she will not be permitted to attend the course.**
5. **Candidates are requested to download the declaration cum verification form enclosed herewith and fill the desired information in advance to avoid unwanted delay.**
6. Course conducting institutions will not liable to provide any TA/DA and accommodation during the training program. Candidates have to make their own arrangement for attending the above mentioned training program. However, centre coordinator may be requested for getting some help in arranging accommodation.
7. Allotted Training centre will not be changed in normal circumstances. However, in case of genuine reasons, the request for the change of training centre may be considered. In this regard, you may contact

Dr. S. D. Sharma
Scientific Officer (G)
Head, Medical Physics Section
Radiological Physics & Advisory Division, BARC
CT&CRS Building, Anushaktinagar, Mumbai - 400094,
Phone: 022-25598713
Email: sdsbarc@gmail.com/ sdsharma@barc.gov.in

Note 1: Provisional list of candidates who will be eligible for regularization through radiation safety certification program in the year 2016 will be intimated in due course of time.

Note 2: Candidates who wish to get enrolled in RT training programme and institutions conducting RT training programme are advised to note the contents of the AERB directive dated 17/07/2012 regarding eligibility criteria for RT technologists. Candidates not fulfilling the criteria will not be considered for regularization through safety certification programme and will not be eligible to work as RT technologists in the country.

Therefore, Candidates who are interested to pursue radiotherapy technologist training programme are advised to verify with the institution conducting the training programme and enroll themselves only with those institutions whose training programme is in line with AERB requirements. List of institutions conducting radiotherapy technologist training programme whose course is in line with AERB requirements is available on our website.

**Government of India
Atomic Energy Regulatory Board
Radiological Safety Division**

July 17, 2012

Eligibility Criteria for Radiotherapy Technologists

As per the decision taken by AERB regarding the eligibility criteria for those candidates who have passed Radiation Therapy Technologists training programs not in line with recent AERB requirements with respect to course content and/or affiliation are as follows:

The candidates, whose minimum basic qualification is 10+2 Science and having experience of less than 5 years will be regularized through safety certification program, recognized by AERB, within a period of one year. In the meantime such candidates are permitted to work as Radio Therapy Technologists.

Further, following is decided with regard to Institutions running such programmes:

- (i) Radiation Therapy Technologists' program, where basic entry level qualification is 10+2 in Science but the course content is not as per AERB requirements, should align their course curriculum in line with recent AERB requirements before admitting next batch of students, failing to which they should not enroll students for the next batch.
- (ii) Radiation Therapy Technologists' training program whose course content is in line with recent AERB requirements but not affiliated to any Board/University, should get their program affiliated to any recognized Board/University by 2013 failing to which they should not enroll students for the year 2014 onwards.

This has approval of the Competent Authority.

(S.A. Hussain)
Head, RSD, AERB

1. Name of the candidate:
2. Father's Name:
3. Date of Birth:
4. TLD Badge Number:
5. Total working experience as radiotherapy technologist on or before **31/03/2015** including previous job:
2. Mobile Number :
- 3.E:Mail:
1. Name & address of the institution, where presently employed:
2. Details of qualification and experience:

(Please attach attested copies of basic, professional and experience certificates)

A. Academic and professional qualification

Sr. No.	Educational qualification /Experience	Board/University
1.	10 th	
1.	10+2(Science)	
2.	B.Sc./ M.Sc.	
3.	Professional Course (e.g. DRT/DMRT/PGDRT/ADRT/BMRT/BMXRT etc.)	

B. Experience as on or before March 31, 2015

Sr. No.	Name of the institution where candidate has worked/working	Duration of work (Months/Years)

3. Any Other Information

4. Declaration:

“This is to state that all the information, certificates (academic, professional, experience) submitted by me and details given above to attend the safety certification program for the radiotherapy technologists are true to the best of my belief and knowledge. If any information provided by me is found to be non-genuine at any point of time, I understand that safety certificate issued to me will be revoked and I shall not be able to work as a radiotherapy technologist in the country”.
