

**AERB hosted a two-day National Conference on Regulatory Interface (NCRI)-2018 during December 27-28, 2018 at Mumbai.**

AERB hosted a two-day National Conference on Regulatory Interface (NCRI)-2018 during December 27-28, 2018 at Mumbai. This was the second conference organized by AERB with a purpose to take open feedback on all regulatory processes of AERB from its Licensees of Nuclear Facilities. The objective of the conference was to foster an environment wherein the Licensees could interact, discuss and provide valuable feedback to AERB on various issues related to nuclear/ radiation safety, regulatory requirements.

*Shri S. A. Bhardwaj, Chairman, AERB addressing the NCRI-2018.*

NCRI-2018 witnessed gathering of delegates of nuclear facilities under purview of AERB and experts in the field. Around 200 delegates participated in the conference, with representation from the NPCIL, BHAVINI, Heavy Water Board, UCIL, IREL, amongst others. Following technical sessions were held in NCRI-2018:

- Overall Expectations from Regulatory Framework
- Feedback from Licensees & AERB experts on various activities of AERB
- Atomic Energy (Factories) Rules, 1996
- R&D Activities supporting regulatory decisions
- Emergency Planning and Response
