

## AERB conducted Public Outreach program in schools located near RAPS (Rajasthan Atomic Power Station) Rawatbhata, Rajasthan

---

On October 11, 2023, the AERB conducted public outreach programmes in three schools located near RAPS (Rajasthan Atomic Power Station), Rawatbhata, Rajasthan. The programmes were attended by around 300 participants, which includes students and teachers of high school and junior college. AERB officials from HQ (Mumbai) as well as AERB Site Observer Team (SOT) stationed at RAPS delivered presentations, in Hindi. The topics covered were a) safety aspects and AERB regulations in Nuclear Power Plants and b) multifarious societal applications of ionising radiation.

Following the presentations, participants engaged actively with the AERB officials, seeking clarification on safety aspects of nuclear energy and the societal applications of radiation.

### Glimpses of the programme

*Rajkiya Uchch Madhamik Vidhyalay, Rawatbhata*

*Rajkiya Balika Uchch Madhamik Vidhyalay, Rawatbhata*

*Atomic Energy Central School, No. 2, Rawatbhata*
